About Us

Swargiya Shri Jaidatt Wailla Swatantrata Sangram Senani Government P.G. College, Ranikhet (Almora) was established in 1973 in the scenic hill station of Ranikhet. Initially started with a single B.A. programme, the college has grown into a multi-disciplinary institution offering courses in Arts, Science and Commerce.

The college is presently located at Chiliyanaula, at an altitude of about 1869 meters, providing a peaceful and ideal academic environment. It is affiliated to Soban Singh Jeena University, Almora and is NAAC accredited with B grade (2012) and B+ grade (2023).

At present, the college offers 17 undergraduate and 14 postgraduate programmes, taught in bilingual mode (Hindi and English). It also hosts a regional centre of Uttarakhand Open University. With well-qualified faculty, adequate infrastructure and implementation of the New Education Policy (NEP) 2020, the college continues to play a vital role in providing quality higher education to students of this largely rural region.

Commerce Department

The Department of Commerce at Government P.G. College, Ranikhet, was established in 2000-01, offering a three-year B.Com (TDC) program in bilingual mode. Over the years, the department has expanded its academic offerings, introducing M.Com in 2015-16.

The goal is to provide quality commerce education, fostering critical thinking, problem-solving and strategic decision-making skills. The curriculum integrates global knowledge, preparing students for a competitive world while encouraging lifelong learning.

About the Seminar

The National Seminar on **“Sustainable Innovation and Entrepreneurship”** brings together academicians, researchers, entrepreneurs and policymakers to explore innovation-led sustainable development. It focuses on sustainable technologies, bio-innovation, digital transformation, supportive policies, funding models and academia–industry collaboration to promote startups and a sustainable future.

Objectives of the Seminar

- 1.To Promote Sustainable Innovation.
- 2.To Foster Entrepreneurship and Startup Ecosystems.
- 3.To Strengthen Academia–Industry Collaboration.
- 4.To Explore Digital Transformation for Sustainability.
- 5.To Discuss Policy, Governance and Funding Frameworks.

Key Topics

- **Science-Driven Innovation:** Pioneering Sustainable Solutions.
- **Entrepreneurial Strategies:** Scaling Science-Based Startups.
- **Sustainable Technologies:** Merging Science and Business for Impact.
- **Funding Science-Driven Ventures:** Challenges and Opportunities.
- **The Entrepreneurial Journey:** Lessons from Science-Driven Success Stories.
- **Digital Transformation:** Advancing Sustainability Goals.

Theme Of The Seminar

'Empowering Science-Driven Startups for a Sustainable Future'

Sub-Themes Of The Seminar

- 1. Sustainable Technologies:** Renewable energy, waste management and green manufacturing
- 2. Bio-Innovation:** Biotechnology, agriculture and healthcare solutions for sustainability
- 3. Digital Transformation for Sustainability:** Artificial intelligence, Internet of Things (IoT) and big data in driving sustainability
- 4. Policy and Governance:** Supporting startups through policies, incentives and grants
- 5. Investment and Funding Models:** Angel investors, venture capital and public-private partnerships
- 6. Bridging Academia and Industry:** From research labs to commercial ventures
